

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_9598
Title of the Manuscript:	Singular Values of a Family of Singular Perturbed Exponential Map
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	-I would suggest a longer introduction on singular values and asymptotic values so that the text would be much more self contained. - There are some n and square involved in equation $aw^2 - e^w = 0$ which have to be checked in the whole proof of Theorem 2.	-Done by added some text. -Done changes accordingly
<u>Minor</u> REVISION comments	Page 1: Please define C. Page 2: Please, give some detail on the elements appearing in Theorem 1 in order to clarify the result. They have not been defined in the text. Some language corrections should be made: - Page 1: "is investigated the" should say "investigated the". Also, "functions of bounded type" should be "it is said to be a function of bounded type" - Page 2: "As we know that" should be "We know that". Also "exhibit" should be "exhibits". Also "by author." Should be "by some authors". Also "cleared" should be "clear". - Page 3: "are critical points" should be "be critical points"	Page 1: Done by added text. Page 2: Done by added text. Page1: Done Page 2: Done Page 3: Done
<u>Optional/General</u> comments
