

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	2014_BJMCS_13866
Title of the Manuscript:	On some new nonlinear retarded integral inequalities with iterated integrals and their applications in differential-integral equations
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1) The introduction should be written a more comprehensive. 2) The following theorems are given for what should be written, Theorem (Gronwall[2]), Theorem (Gronwall-Bellman[3]), Theorem (Lipovan[4]), Theorem[5]. 3) The following misprints should be corrected in the article; P.1, in the Introduction “. Gronwall inequality” (Delete .) “Theorem (Gronwall[2])” (l is missing) “Theorem (Gronwall-Bellman[3])” (l is missing) P.2, in the Theorem(Lipovan[4]) “$\alpha(t) \leq t$ on $[t_0, T_0]$” (J should be $\leq$), In the Theorem[5] “what is the meaning of $\alpha(t) \int \alpha \int C([t_0, T_0], [t_0, T_0])$”. “Many results on generalization of Gronwall-Bellman...” (l is missing). P.3, in the line 1, $Y_+^* = (0, \infty)$ should be , $Y_+ = (0, \infty)$, In the last line “The proof is completed” (d is missing). P.4, in the proof “$J_1^q \leq Y_1(t)$” should be $J_1^q(t) \leq Y_1(t)$. P.5, end of the proof “The proof is completed” (d is missing). P.6, end of the proof “The proof is completed” (d is missing). P.10, end of the proof “The proof is completed” (d is missing).	

SDI Review Form 1.6

	P.12, end of the proof "The proof is completed" (d is missing). Lines between 3 and 13 should be written by bigger font size (similarly previous papers).	
<u>Optional/General</u> comments
