

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_14398
Title of the Manuscript:	Information Flow in Concurrent Logic Programming
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The paper provides an overview of information flow in concurrent logic programming. It highlights its application to detection of deadlocks. The topic is properly introduced and appropriate definitions are provided. Its application to deadlock detection is properly described by example. I believe the manuscript can be accepted as such.	
<u>Optional/General</u> comments
