PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The Article it is written in a simple enough manner, needs to be checked and documented references, for example equations (1.1) and (1.2)	
<u>Minor</u> REVISION comments	Abstract is not clear enough manner, needs to expand more	
<u>Optional/General</u> comments	General observations: There in the references lack of coordination in the line between the different sources, where it is used to slash title search and other times to the reference name Example Notice No. reference 23, 24 and others. Intellectual and scientific content is good, thorough internal documentation in some aspects, it is better if it works in all parts of the research, scientific integrity is intact, and the ethics of scientific research sufficient.
