| Journal Name:            | <a href="#">International Research Journal of Pure and Applied Chemistry</a>                                      |
| Manuscript Number:       | 2014_BJMCS_11628                                                                                                  |
| Title of the Manuscript: | Positive solutions of singular periodic boundary value problems for second order impulsive differential equations |
| Type of the Article      | Original Research Article                                                                                         |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                      |
| <b><u>Minor</u></b> REVISION comments      | <p>In this paper, by using fixed point theorem in cones, the existence of positive solutions for singular second-order periodic boundary value problem with impulse effects is established. The result is interesting, the method is also correct, but many typos and grammar errors should be revised carefully.</p> <p>After address these problems, I would like to recommend this paper to be accepted.</p> |                                                                                                                                                                                      |
| <b><u>Optional/General</u></b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                      |
