

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_12891
Title of the Manuscript:	The Fixed Points of Abstract Morphisms
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In this paper, authors defined the notion of abstract morphisms. Authors proved that Hausdorff topological spaces together with abstract morphisms create a category. Authors provide good number of examples to illustrate presented results.	
Minor REVISION comments	(1) Abstract Must be modified. (2) Introduction must be modified by adding more about literature of fixed point theory. (3) References must be modified by adding following references. S. Manro, S. S. Bhatia and S. Virk, A fixed point theorem satisfying general contractive condition of integral type using two pair of converse commuting mappings in metric spaces, <i>International Journal of Mathematical Archive</i>, 2 (10) 2011, 2051-2054. 36. S. Manro, S. Kumar, S. S. Bhatia and S. M. Kang, Common fixed point theorems of weak reciprocal continuity in metric spaces, <i>International Journal of Pure and Applied Mathematics</i>, 88(2) (2013), 297-304. 39. S. Manro, Some common fixed point theorems in complex valued metric spaces using implicit relation, <i>International Journal of Analysis and Applications</i>, 2(1)(2013), 62-70. (4) Lots of typing mistakes
