

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_10133
Title of the Manuscript:	Intuitionistic trapezoidal fuzzy prioritized operators and their application to multiple attribute group decision making
Type of the Article	Original Research Article

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In this manuscript, 2014_BJMCS_10133, the authors developed some intuitionistic trapezoidal fuzzy prioritized operators and interval-valued intuitionistic trapezoidal fuzzy prioritized operators for handling multiple attribute group decision making problems in which the attributes and decision makers are in different priority level. Finally, an application of the proposed approach to group decision making problem with interval-valued intuitionistic trapezoidal fuzzy information is shown with the demonstration of a numerical example. The results are original and mathematically correct. The paper is nicely present and well written. Due to above reasons I recommend this manuscript can be published in the BJMCS.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
