

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_13866
Title of the Manuscript:	On some new nonlinear retarded integral inequalities with iterated integrals and their applications in differential-integral equations
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In this paper the authors establish some new generalized retarded nonlinear integral inequalities of Gronwall-Bellman type and upper bound estimation of unknown functions using integral and differential skills. Obtained results generalize results of H. El-Owaidy et. al to some inequalities with both retarded argument and nonlinear integral. Some applications are also presented to illustrate the usefulness of some of our results. I suggest some changes to be made to improve the paper. 1) Improve the English 2) Maintain spacing between words e.g page.8 line 15. 3) Type the paper in one style and one font. The calculations appear to be correct.	

SDI Review Form 1.6

	Therefore I would <u>recommend this paper for publication.</u>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
