

SDI Review Form 1.6

PART 1:

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	2013_BJMCS_5474
Title of the Manuscript:	Traveling Wave Solutions for a coupled KdV equations
Type of the Article	Research Paper

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1) The references [4] and [12] are same! 2) The references [13] & [14] cited in the introduction (Page 2) don't have any conformity to the reference list! 3) It is necessary that the obtained exact solutions for Eq. (1.2) are compared with the other studies, for instance Wang <i>et al.</i> 4) The submitted paper is lacking the required novelty for publication. As, exact travelling wave solutions of the coupled KdV system have several times been derived by using the method of dynamical systems! You can observe the following publications: a) Liping Wu, Chunping Pang, Travelling wave solutions for the generalized coupled Hirota-Satsuma KdV system, Applied Mathematics and Computation, Volume 175, Issue 1, 1 April 2006, Pages 101-118. b) Jibin Li, Yi Zhang, Solitary wave and chaotic behavior of traveling wave solutions for the coupled KdV equations, Applied Mathematics and Computation, Volume 218, Issue 5, 1 November 2011, Pages 1794-1797.
