

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2013_BJMCS_7023
Title of the Manuscript:	Gradient-Orthonormal Bases of Momentum-Entire Wavelets in Odd Dimension
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The author/authors presents/present the gradient-orthonormal bases of momentum-entire wavelets in dimension n in the case n odd. The corresponding propagator is also investigated. The results are correct and interesting. Below, there are some small remarks: - for the notation used for the integrals in (1.3), (1.8), (2.12), (2.14), ..., explain after (1.3) this notation, or use the classical one. - page 6, line 10 from above: write "=" in front of the formula - page 7, line 3 from above: write "The" instead of "the" - page 12, line 9 from above: explain "lhs"	
<u>Optional/General</u> comments
