

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_12048
Title of the Manuscript:	A Simple and Unified Method for Automatic Generation of Picture Maze The author changed the title to Picture Maze Generation by Successive Insertion of Path Segment
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The changed title much better reflects the content of the paper. It is still up to the author to determine whether the word 'segment' should be in singular or plural form. The paper has been substantially expanded and improved. The author has taken greater care in explaining and verifying formally the algorithm. The revised paper addresses successfully all the comments made in the previous review. Picture and table quality is improved, too. I recommend the paper for publication in its current form.
