

1.Special Query to Author

Subject: Urgent request for clarification for manuscript number 2013/BJMCS/7391

Thank you for submitting your valuable manuscript number 2013/BJMCS/7391 (Title: COMPUTER IMPLEMENTATION OF THE DRBEM FOR STUDYING THE GENERALIZED THERMO ELASTIC RESPONSES OF FUNCTIONALLY GRADED ANISOTROPIC ROTATING PLATES WITH TWO RELAXATION TIMES). Our Initial Review and Screening Subcommittee (IRSS) found a similar publication:

Available at (http://www.ijastnet.com/journals/Vol_3_No_7_October_2013/14.pdf)

As per our strict quality control policy we cannot consider any published paper for our journals (Our General editorial Policy states: Submission of a manuscript clearly indicates that: the study has not been published (partly or as a whole) before or is not under consideration for publication elsewhere (except as an abstract or as part of a published lecture or academic thesis)) (Link: <http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy>).

Therefore, you are kindly requested to clarify this case at the earliest. Kindly inform us, if you have made any mistake during manuscript submission or not. If you have published this paper as only abstract in any conference, you need to adequately restructure the paper before submitting here to avoid any possible copyright or legal conflict.

You may wish to provide your clarification point by point in tabular format.

Clarification Table

Sl No	Section of manuscript	Your manuscript (In this column please write similar sentences, values, figures, etc from your manuscript)	Previously Published manuscript (In this column please write similar sentences, values, figures, etc from the published papers)	Authors clarification (In this column please write your clarification to differentiate your manuscript from previously published paper)
01	Title			
02	abstract			
03	Introduction			
04	Methods			

05	Results and Discussion			
06	Conclusion			
07	Reference			

If these papers are not same and there is no question of plagiarism you need to certify the same in writing. After your certification other editorial formalities will be started.

The differences in the following table

Sl No	Section of manuscript	Your manuscript (In this column please write similar sentences, values, figures, etc from your manuscript)	Previously Published manuscript (In this column please write similar sentences, values, figures, etc from the published papers)	Authors clarification (In this column please write your clarification to differentiate your manuscript from previously published paper)
01	Title	two relaxation times	one relaxation time	BJMCS paper consider generalized theory with two relaxation times (advanced problem)
02	abstract	in the context of the Green and Lindsay theory	<i>in the context of the Lord and Shulman theory</i>	the same method applied to the difference theories

03	Introduction	generalized theories of thermoelasticity as introduction for GL theory, FGM and DRBEM	generalized theories of thermoelasticity as introduction for LS theory, FGM and DRBEM	introduction of BJMCS for GL theory, but introduction of previous published for LS theory
04	Methods	Considered GL theory	Considered LS theory	theories are different
05	Results and Discussion	the numerical results for GL theory	the numerical results for LS theory	the numerical results are different
06	Conclusion	for GL theory	for LS theory	
07	Reference	the same top references for the BEM, FGM but reference[53] was compared through GL theory	the same top references for BEM, FGM but reference[53] was compared through LS theory	theories are different in the same subject so there are the same used references

3. Special Query to Author

Thank you for your explanation, which claims that this is not the case of any type of plagiarism or copyright infringement. Kindly take the reference of your previously published manuscript "Computer Implementation of the Drbem for Studying the Generalized Thermoelastic Responses of Functionally Graded Anisotropic Rotating Plates with One Relaxation Time" in this revised manuscript.

We'll wait to receive your modified manuscript.
