

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_15751
Title of the Manuscript:	Exact explicit solutions of a nonlinear evolution equation
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The authors present a good technical paper with relevant topic and proper research methodology.	Thanks for the reviewer's positive comments.
<u>Minor</u> REVISION comments	The language of the paper is good and arrangement is satisfactory. The following papers should be cited and added in the list of references. 1- The method of lines and Adomian decomposition for obtaining solitary wave solutions of the KdV equation, <i>Applied Physics Research</i>, 2013. – Vo1. 5, №3. – P. 43-57 2- Homotopy perturbation Pade technique for constructing approximate and exact solutions of Boussinesq equations, <i>Applied Mathematical Sciences</i>. – 2009. – Vo1.3, №22. – P. 1061-1069	We have cited the references proposed by the reviewer.
<u>Optional/General</u> comments
