

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_15751
Title of the Manuscript:	Exact explicit solutions of a nonlinear evolution equation
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This paper investigates the exact traveling wave solution of ZK-BBM equation by bifurcation method of dynamical system. However, there is a serious mistake on Eq.(7). Using variable transformation $\xi = x + y - ct$, Eq.(5) cannot be reduced into Eq.(7). Additionally, in Eq.(7), an unknown parameter k is introduced and its appearance is needed to explain. Due to importance of Eq.(7), the careful verification should be carried out.	I really appreciate the reviewer's comments for pointing out the mistake in our paper. Eq.(5) was a printing error and a right Eq. (5) are given in the revised paper.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
