

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2015_BJMCS_16079
Title of the Manuscript:	Some New Oscillation Theorems for Second Order Difference Equations with Mixed Neutral Terms
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The submitted manuscript contains a new, and in some sense, final result describing the oscillatory behavior of solutions of second order neutral difference equation. The author(s) had obtained several oscillation theorems which ensure that all solutions of equation. Therefore obtained results are new and further improve and complement to some of the results in [1,9,12,18,19].	Yes agreed. This is included in the revised paper
Minor REVISION comments		
Optional/General comments
