

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2015_BJMCS_17907
Title of the Manuscript:	UNIQUENESS OF q -DIFFERENCE ON SHARING ONE VALUE
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The author(s) should number the references serially and accordingly. Some references are not cited in the paper. References must be cited serially. Note: All references must be numbered consecutively and citations of references in text should be identified using numbers in square brackets (e.g., "as discussed by Joe [9]"; "as discussed elsewhere [9, 10]"). All references should follow the order 1, 2, 3, 4... and listed in the REFERENCES section in the order they appear in the text. All references should be cited within the text; otherwise, these references will be automatically removed. Please do not skip or break the sequence.	Thank you! We have adjusted the order of all references in this paper and moved the others ,according to your valuable comments.
<u>Optional/General</u> comments	The author(s) investigates uniqueness problems of q-difference transcendental meromorphic functions with zero order sharing one value. We obtain some results on q-difference, which extend many previous results. The paper is well written and understood.	Thank you very much.
