

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_9225
Title of the Manuscript:	Solution of Heat and Wave – Like Equations by Combine Adomain Decomposition Method and Sumudu Transform
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	The paper established the method by combining Adomain decomposition method and sumudu transform method, and presented that the method is efficient by six examples. I think the mathematical content is correct, however, there are many mistakes in English grammar. I suggest this paper should be accepted if all mistakes are corrected. 1. The use of punctuation is not correct almost full text, such as ".....", please check carefully; 2 . the first sentence in Abstract is not clear; 3 ↓ line 5 in Introduction, "In spared and" should be cut; It is difficult to understand the meaning of the sentence "It is worth introduced by Adomain"; 4 Page 1 ↑ line 7 "the set of function" → "the set of functions". The author(s) should check the paper one sentence by one sentence to avoid so many mistakes in English grammar. I added some notes on the PDF file of the paper to help the author's revision.	Thank you for your comments I make all the corrections, please look at the revised paper
