PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The resubmitted manuscript is well revised according to the referee's suggestions. I have no further comments. However, there are still some typing errors as follows: In the section 2 of Page 102, "Substituting $u(x,t)=\varphi(\xi)$ should be corrected to $u(x,y,t)=\varphi(\xi)$; Eq.(8) should be revised as "$(1-c)\varphi-a\varphi^2-c(b+k)\varphi'\prime=g$". Additionally, in Page 101, authors mention that "the nonlinear (2+1) dimensional ZK-BBM equation (5) is a generalized form of the ZK-BBM equation (6)". I suggest that more explanations should be provided in detail to understand it.	We have corrected the typing errors according to reviewer's comments, and the corrections are highlighted in the paper.
