

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_9086
Title of the Manuscript:	ON CURVATURES OF LORENTZIAN CONCIRCULAR STRUCTURE MANIFOLDS

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The paper needs again revision due to the following reasons: 1. In page 1, in line 4 from the top ...'the cases'.... should be deleted, in line 2 from the bottom ..'on' ... should be deleted and in line 1 from the bottom'which has'.... should be written as... 'which have'... 2. In page 2, the sentence 'The present paper.....' need corrections. 3. The type of the tensor field g is $(0, 2)$, not $(2, 0)$. 4. The author must give the reference in page 3 such as "..... (briefly (LCS)-manifold)" [4] and "..... of Matsumoto" [4]. 5. The author should write 'an (LCS)n-manifold' throughout the paper. 6. In page 4, lemma 2.2 must be cited by the references [1],[2]. 7. In page 5, in line 5 from the top , the correction will be ..."if and only if either the scalar curvature of M is $r = \dots\dots\dots$" 8. The example 3.5 either should be deleted as this example is copied from the paper [NW]: A. A. Shaikh: Some results of (LCS)n-manifolds, J. Of Korean Math. Soc., 46(2009), 449-461 and also many other paper of A. A. Shaikh and his co-authors which was pointed out in the 1st comments. Unfortunately the author of the paper under review did not take any care to revise the manuscript. It should be done otherwise in future the author will fall in copyright problem/plagiarism. 9. The English of the paper should be corrected carefully. 10. There are many other typographical errors which should be corrected.	Okey.
