Subject: Re: Request for editorial decision for manuscript number 2014_BJMCS_15619

As the paper is already recommended for acceptance, I didn't have questions about the material. However, after a quick check about the revision. I found there are still issues that the authors didn't solve.

- 1) Equation on page 7 is broken. Only part of is shown up.
- 2) Equation on page 6, "Build C1,C2, C3" section is illegible.
- 3) There are no spaces between many words. The following list is not a complete one.
Page 2: "discernment.The"
Page 3: 'BasicBelief', "(BBA).The", "(X),determines", "socialmachine"
Page 8, "learning complexity,n"
Page 10, the URL "athttp"
Page11, "TCMLbased", "Level.DSCML", "Betterthan","accurate in"
Page 12, "CPUtime achievedby","timeestimated"
"canbe" "DCSML.Therefore","methods.Table 5" "forthe" "methods.This",
" demonstratesthe" "gainby" "approach to" "performancecompared"
Page 13: "Overfittingcompared", "ThisPaper"

Those are required to be correct before the paper is published.
