

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2015_BJMCS_18505
Title of the Manuscript:	A New Layer of Service Oriented Architecture to Solve Versioning Problem
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Abstract section need modification as very less content is highlighted related with versioning issue. Add some more literature for its justification. 2. Elaborate the working of your proposed method in terms of flow chart. 3. Highlight the limitation of your proposed model. 4. Related work is not justified properly & it is too long to understand make it short. 5. Conclusion section is also too long discuss only the thing that you conclude.	Many thanks for reviewer's constructive and helpful advises: - Abstract section is improved - The proposed method is architecture and notes an algorithm. We ask kindly the reviewer to accept a picture instead of flowchart - The performance might be an issue - Related work now is shorted - Conclusion section is improved
Minor REVISION comments	1. Sharp the image as it is not clearly visible. 2. Mention the full of UDDI, VRESCO, WSIF etc in footer section. 3. Routing table and its value discussed is not visible.	- Done - Done - Done
Optional/General comments	1. Keyword should not be more than three. 2. Update reference section properly.	- Keyword reduced to three - Reference section is updated
