| <b><u>Compulsory</u></b> REVISION comments | <b>N. A</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                          |
| <b><u>Minor</u></b> REVISION comments      | <ol style="list-style-type: none"> <li>1. Some of the articles in the reference list have not been cited in the article. (See [1], [7], [11], [16], [18-21], [23] in the reference list. It will be nice if the necessary articles are properly cited in the articles and others may be excluded from the reference list.</li> <li>2. Some notations used in the paper differ from the notations in the common usage. For example, authors use <math>d_{out}(v)</math> for the outdegree of a digraph. But the common and popular notation for the same is <math>d^+(v)</math>. It will be better if the authors use popular notations.</li> <li>3. Please use "if and only if" in all places wherever authors wrote "iff".</li> </ol> | <p>All the comments are addressed.</p> <ul style="list-style-type: none"> <li>- All the unreferenced papers in the reference list are removed or referenced in the text.</li> <li>- Notations <math>d_{out}(v)</math> and <math>d_{in}(v)</math> are replaced by <math>d^+(v)</math> and <math>d^-(v)</math>, respectively.</li> <li>- "iff" is replaced by "if and only if".</li> </ul> |
| <b><u>Optional/General</u></b> comments    | The article is a well-written article. Good language. The concepts and algorithms are explained well with the help of graphs and examples. The content of this article is correct, worthy and interesting. Hence,                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                          |
