

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_19963
Title of the Manuscript:	Coupled Fixed Point Results In Partially Ordered Fuzzy Metric Spaces
Type of the Article	Original Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Good job in general. Didactic, well divided, reaches the goals it sets itself. The proposal to establish a coupled fixed point result in fuzzy metric spaces by utilizing the control function was well developed. I believe that development is clear and concise.	
<u>Minor</u> REVISION comments	Page 103: Lemma 2.1. To correct in the text, "if", and no "iff". Page 104: Lemma 2.2. To correct in the text, "if", and no "iff". Page 104: Theorem 2.3. In item iv), write a sentence on the same line numbering.	We agree with the reviewer and modified the text. We agree with the reviewer and modified the text. Instead of writing a sentence we have edited the line corresponding to item (iv)
<u>Optional/General</u> comments
