SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The work is very interesting. In the article, the authors propose a new method for calculating the Witt groups of P^1 . For this purpose, they use the localisation theorem of Balmer and the excision theorem of S.Gille.	
Minor REVISION comments	No strict mathematical proofs of some mathematical statements.	
Optional/General comments
