

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2015_BJMCS_18497
Title of the Manuscript:	Mathematical model of formation aerosol particles fractalstorm cloud
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
REVISION comments	The model is an educational model of aerosol particles. The model takes fractal properties of the storm cloud. In literature, there are good articles on this topic. In the copy downloaded wherever reference quoted (?) appeared. This looks to me as basic model and this can be made more interesting in the light of recent articles. Here References are not listed properly.	
<u>Optional/General</u> comments
