**PART 1: Review Comments**

|                                            | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | <p>1. The in-text citations in numerical format should correspond to the numbers of the cited references at the end of the manuscript. Most, if not all, of the in-text citations should be revised bearing in mind the corresponding numbers of the references at the end. For example in page 1, [1] should be [9], [2] should be [10], and [3] should be [6].</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                               |
| <b><u>Minor</u></b> REVISION comments      | <ol style="list-style-type: none"> <li>Page 2, line 3: Olaleru et al. should be <i>Eke and Olaleru</i></li> <li>Page 4, line 3: delete the extra 'j'</li> <li>Page 4, paragraph 2, line 4: Eke should be <i>Eke and Olaleru</i></li> <li>Page 5, equation 9: unpaired parenthesis at the left side</li> <li>Page 6, line 1: arbitrary choosen should be <i>arbitrarily chosen</i></li> <li>Page 6, line 7: choosen should be <i>chosen</i></li> <li>Page 6, line 14: establish should be <i>established</i></li> <li>Page 6, last inequality: unpaired '}'</li> <li>Page 7, first inequality: unpaired '}'</li> <li>Page 7: equation (13) should be (14), while equation (14) should be (15)</li> <li>Page 7, third to the last line: hence (11) holds, should be hence (12) holds</li> <li>Page 8, 6<sup>th</sup> inequality: pair of '()''</li> <li>Page 8, 4<sup>th</sup> to the last line: inequality should just be <i>equality</i></li> <li>Page 9, line 13: (10) should be (11)</li> </ol> |                                                                                                                                                                               |
