|--------------------------|------------------------------------------------------------------------|
| Journal Name:            | <a href="#">British Journal of Mathematics &amp; Computer Science</a>  |
| Manuscript Number:       | <b>Ms_BJMCS_19191</b>                                                  |
| Title of the Manuscript: | <b>Estimation of Binomial Distribution in the Light of Future Data</b> |
| Type of the Article      | <b>Short Research Article</b>                                          |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                                    | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | <p>In Equation (2.1): After writing the p.m.f of the binomial distribution, please include; <math>\xi = 0, 1, 2, \dots, n</math></p> <p>In Equation (2.2), where did you see "r"? Do not forget that the variable under consideration here is <math>\xi</math>.</p> <p>In Section 3 (Conclusion): Line 8: Kindly change 'preforms' to 'performs'</p> <p>Section 3, line 20, Remove 'y' before the word minimizing</p> |                                                                                                                                                                               |
| <b>Minor</b> REVISION comments      | You may consider re-writing your 'combination symbol' as $\binom{n}{\xi}$                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                               |
| <b>Optional/General</b> comments    | The write-up is good in general.                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                               |
