

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_20515
Title of the Manuscript:	V4 Magic Labelings of some graphs
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript entitled 'V4 Magic Labelings of some graphs' presents the body of scientific knowledge on this subject in a fair, objective manner generally. The article may become acceptable after minor revisions of content and English. The paper describes novel work. The manuscript fullfill lots of graph classes and he/ she determine their magic labelings. In the paper all figures must put after their definitions, now their position not seem good. For example, Figure 1 should be before Lemma 2.1, page 2, etc. The proofs of some theorems just left as obvious, in my opinion they need a little sentences, it is obvious or it is clear from definition of... . On page 13 and on the other pages, Cartesian Product of graphs should be shown as a little empty square. On page 16, book graph B_6 is not true, please draw a correct one. On page 22, The definition of bypyramid graph should be before its figure. The author(s) should add conclusion part in it.	
<u>Minor</u> REVISION comments	Generally, paper is well-written but it need a little changes which I explain above.	
<u>Optional/General</u> comments
