

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2015_BJMCS_16193
Title of the Manuscript:	Genetic Algorithm Based Chaotic Search for Constrained Nonlinear Optimization Problems
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Excellent work, with sufficient quality for its publication in BJMCS. Good application of Genetic Algorithm and Chaos theory to nonlinear optimization problems, with interesting results. I have strong attraction towards Chebyshev's technique in Numerical Analysis, then perhaps this paper could give major emphasis on this topic.	
<u>Minor</u> REVISION comments	Only to revise the Title of Sec. 2, there is a word written incorrectly.	
<u>Optional/General</u> comments	This paper is scientifically robust and technically sound.
