

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2015_BJMCS_17331
Title of the Manuscript:	On natural characterizations of tensor integrability
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This article is concerning tensor integrability . It has some new lemmas and theorems . Author conclude by noticing that the theorems generalize the fact that the injective tensor product $L^1 \otimes$ with a Banach space X can be identified to the completion with respect to the Pettis norm of the space of all classes of X-valued Pettis-integrable strongly measurable functions .Please clarify the ethical issues if any	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
