

SDI Review Form 1.6

Journal Name:	British Journal of Mathematics & Computer Science
Manuscript Number:	2014_BJMCS_14628
Title of the Manuscript:	A Mathematical Model and Simulation of Chlamydia Trachomatis in a Human carrier
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The author (authors) studied the local asymptotic stability, Analytic solution of mathematical model which is extension of Wilson's model and results are presented graphically. In my opinion the study of local asymptotic stability and analytic solution of the model just as class exercise. Note: The paper reconsider only if author study the global asymptotic stability of the considered model.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
