SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. A detailed literature on HCISF is missing to show the missing gap for the study and what have been done by other authors that show use of database and ASF techniques. 2. Fig 2 should be inline with text that describe how the model flowchart was implemented and an explanation is missing on it. 3. The results section was best suitable by being represented in tabular form (tables) to show the comparison with other previous results that that encouraged redundancy. 4. Issues of data integrity and redundancy in databases should be explained in detail in literature and how it affects the ASF models. 5. A scientific detailed discussion section is missing to match with the problem and results. 6. Although conclusion should sum up the research it should also looks at the future work 7. Some reference in text not appearing in reference list (Gregorio and Antonio, 2012)	
Minor REVISION comments		
Optional/General comments	The author to add more literature to show the missing gap, and to represent the results and discussion well.
