- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment:	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Herbal enema is a very crude treatment method. Further this treatment method is not supported by previous animal or human experiment. A WHO reference is included but no details provided. Long-term consequences of such enema could be serious.	1) There are no long term adverse consequences related to enema found on literature search. We had conducted pilot study among 10 heart failure patients 5 years back receiving herbal enema. And follow up after every month till 2 years shown no adverse effect. 2) Few studies gives beneficial effect of snehan, swedan in heart failure i) The Journal of Tehran University Heart Center149 TEHRAN HEART CENTER ii) Thermal therapy for congestive heart failure: estimation by TEI index. First Department of Internal Medicine, Faculty of Medicine, Kagoshima University, Sakuragaoka 8-35-1, Kagoshima, Kagoshima 890-8520, Japan. 3) A Meta-Analysis of Massage Therapy Research Psychological Bulletin Copyright 2004 by the American Psychological Association, Inc. 2004, Vol. 130, No. 1, 3-18 Christopher A. Moyer, James Rounds, and James W. Hannu. University of Illinois at Urbana-Champaign.
