

**SDI Review Form 1.6**

**PART 1:**

Journal Name:	<b><u>British Journal of Medicine and Medical Research</u></b>
Manuscript Number:	<b>2013 BJMMR_4217</b>
Title of the Manuscript:	<b>Antinociceptive effects of ethanolic extract of Hybanthus enneaspermus leaf in male albino rats</b>
Type of the Article	<b>Research paper</b>

**General guideline for Peer Review process is available in this link:**

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

## SDI Review Form 1.6

### PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>This manuscript was intended to investigate the Antinociceptive effect of ethanolic extract of <i>Hybanthus enneaspermus</i> leaf (EEHE) in rats by using tail flick and formalin tests. The results showed that EEHE (500 mg/kg and 1000 mg/kg) significantly reduced the paw licking time and significantly increased the tail flick latency. This manuscript is a preliminary study and should not be acceptable. Specific comments are addressed as follows:</b></p> <ol style="list-style-type: none"> <li><b>1. The method of formalin test is different from the method described in many articles. The results of formalin test (Figure 1 and Figure 2) are different from that described in the method of formalin test section.</b></li> <li><b>2. Table 1:</b> <ol style="list-style-type: none"> <li><b>(1) The duration (sec) of AMP before treatment is lower than the control group. Why?</b></li> <li><b>(2) Is there any significant difference between control and AMP groups after treatment?</b></li> </ol> </li> </ol>	<p>Articles that used this method was quoted in the manuscript. We were not the first that used this method. The method was shown to be a standard one. They are not different</p> <p>Not significantly different</p> <p>Yes</p>

**SDI Review Form 1.6**

<b><u>Minor</u></b> REVISION comments	(1) The number and unit should give a space in the manuscript. (2) The grammar of some sentences need to be revised.	Ok, thanks  Ok, thanks
<b><u>Optional/General</u></b> comments	There are many speculations in the abstract and discussion.	Not much speculations
