

SDI Review Form 1.6

Journal Name:	<u>British Journal of Medicine and Medical Research</u>
Manuscript Number:	2013_BJMMR_5696
Title of the Manuscript:	Antigen specific IgG4 in patients with gastrointestinal complainments
Type of the Article	Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>As the author mentioned in this manuscript, IgG4-RD is recently focused on. In such food allergy, there are little insight of relationship between serum IgG4 titer and their complains. Therefore, patients with IgG4-RD should be ruled out from this study.</p> <p>How much are the serum amounts of IgG4 in these patients?</p>	
Minor REVISION comments	<p>Some important articles of IgG4-RD are lacked on reference part, e.g.;</p> <p>Hamano H, et al. High serum IgG4 concentrations in patients with sclerosing pancreatitis. <i>N Engl J Med.</i> 344:732-8,2001.</p> <p>Masaki Y, et al.: Proposal for a new clinical entity, IgG4-positive multi-organ lymphoproliferative syndrome: Analysis of 64 cases of IgG4-related disorders. <i>Ann Rheum Dis.</i> 68;1310-1315,2009</p> <p>Umehara H, Okazaki K, Masaki Y, et al. Comprehensive diagnostic criteria for IgG4-related disease (IgG4-RD), <i>Mod Rheumatol</i> 2012;22:21.</p>	

SDI Review Form 1.6

Optional/General comments	This is an interesting research paper that mentioned about IgG4 antigenspecific antibody test by panels in patients with gastrointestinal complainments.
