

**SDI Review Form 1.6**

Journal Name:	<b><u>British Journal of Medicine and Medical Research</u></b>
Manuscript Number:	<b>2013_BJMMR_8070</b>
Title of the Manuscript:	<b>Fertility Enhancing Potential of Mucuna Pruriens Seeds in Female Sprague-Dawley Rats</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments	I think the authors mean that <i>M. pruriens</i> enhances fertility in female Sprague-Dawley rats possibly through its antioxidant properties is insufficient, and I suggest the authors to discuss their results in greater details and make a reasonable conclusion.	Thank you for your observation which is noted and corrected: Line 249, rich L-Dopa content and its metabolite, dopamine.
<b><u>Optional/General</u></b> comments	This study has been aimed at evaluating of the effect of oral administration of methanolic seed extract of <i>Mucuna pruriens</i> on oestrous cycle, ovulation, reproductive hormones and oxidative stress in the ovary of cyclic Sprague-Dawley (S-D) rats. The work is successful and could be important in terms of understanding Fertility Enhancing Potential of <i>Mucuna Pruriens</i> Seeds . Consequently, the manuscript can be acceptable to publish in your journal with minor revision.	Thank you for accepting our work for publication.
