Subject: RE: Request for final decision for manuscript number 2013_BJMMR_7832

I evaluated the manuscript and the revised version after the reviewers' comments. The authors (Mohemid M. Al-Jebouri and Nuha M. Wahid) completed the reviewer's comments and suggestions in the revised version of the manuscript.

Based on those improvements, I would found that the manuscript entitled originally "Utilization of QuantiFERON-TB Gold In-Tube for TB Diagnosis with Reference to other Immunological Tests of Iraqi Patients" (changed in the revised version as "An Evaluation of QuantiFERON-TB Gold In-Tube and Immunological Tests for TB Diagnosis in Iraqi Patients") is suitable as a publication in its category in the journal. So, please proceed for the publication process of the manuscript as an accepted one.

This is my final editorial decision for the manuscript.
