The word "showing" should be removed from table titles.	Removed
I still think that tables 1-2 should be combined into one table.	I have combined them
I am not sure why the authors changed the way table 3 is presented. Each row should add up to 100%. Each row in tables 4 and 5 should also add up to 100%.	Changed
P-values from a statistical test are still not presented in Table 3.	Corrected
I do not see the results of an adjusted logistic regression.
