

**Editor's Comment:**

The list of references still looks strange. Authors should check instruction on the journal web site. The main problem are journal acronyms , that does not follow international classification, e.g., **European Journal of Clin Micro & Infect Dis :Official Publication of the European Society of Clin Micro** should be presented as Eur J Clin Microbiol Infect Dis. All such data should be double checked before resubmission. DOI number is not obligatory or should be presented for all references.
