SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	According to the General Guideline for Authors Abstract should include sections: Aims:..., Study design:..., Place and Duration of Study:..., Methodology:..., Results:..., Conclusion:.... The sections of manuscript should be numbered, except Abstract. In Methods section several methods have been described. I propose to divide this section into subsections. All references should follow the following style: 1. Grabe M. Antibiotic prophylaxis in urological surgery, a European viewpoint. Int J Antimicrob Agents 2011;38 Suppl:58-63. (in the current version is: "1 Grabe M: Antibiotic prophylaxis in urological surgery, a European viewpoint. Int J Antimicrob Agents 2011;38 Suppl:58-63.") If the article has more than six authors: in the current version is: "2 Magill SS, Edwards JR, Bamberg W, Beldavs ZG, Dumyati G, Kainer MA, Lynfield R, Maloney M, McAllister-Hollod L, Nadle J, Ray SM, Thompson DL, Wilson LE, Fridkin SK: Multistate point-prevalence survey of health care-associated infections. N Engl J Med 2014;370:1198-1208.", should be: 2. Magill SS, Edwards JR, Bamberg W, Beldavs ZG, Dumyati G, Kainer MA et al. Multistate point-	Corrections were all accepted and included in the manuscript. In the abstract, was added the Aims (line 6), Study design (lines 8 and 9) and Place and duration (lines 9 to 11) and maintained the other sections. The sections of the manuscript were numbered, as suggested, except the abstract and references. The subsections were included on Methods section. Corrections were made on lines: 24 (1. Introduction); 60 (2. Methods); 61(2.1 Study Area); 64 (2.2 Selection of Subjects); 81 (2.3 Parameters Assay); 113 (2.4 Statistical Analysis); 150 (3. Results); 207 (4. Discussion); and line 241 (5. Conclusion) that was added according to editor's recommendation. All references were corrected as recommended, following the journal's style.
