

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Medicine and Medical Research
Manuscript Number:	Ms_BJMMR_20203
Title of the Manuscript:	METASTATIC RENAL CELL CARCINOMA PRESENTING AS GASTRIC POLYPS
Type of Article:	Case Study

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The Authors could enrich the discussion and references. Histological figures should be only two and separated: 1) normal tissue 2) pathological tissue with immunohistochemical reactions.	Based on the suggestion we have enriched the discussion and the references. However, we think that figures are more descriptive with this form and it is better not to change the figures.
