SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**This manuscript could have a strong impact on patient safety if it could be edited in the proper and accurate use of English for pages 1-8. For example: Abstract-Methods section, "The questionnaire…evaluates 12 dimensions of PSC…(remove "various" Conclusions-"Staff" is plural remove "s" Introduction-Various studies have…are "unsuitable" should be changed to "substandard" or "unacceptable"; Many studies…safety problems are resulted…"-change to "safety problems are products of inefficiencies and poor communication within specific units." Remove "Normally", start the sentence with : "Gershon et al. (2000) suggest that safety problems are caused by errors and violation of safety principles". Page 1 contains many grammatical and syntax issues.**	
	Page 6-8 should be divided into 2 sections and each section into paragraphs: Discussion section-still have many syntax issues that can be edited Conclusions section-syntax issues exist and should be edited This manuscript needs good editing.	

SDI Review Form 1.6

Minor REVISION comments		
Optional/General comments	Edit, edit, edit. Results could have an impact in the need to improve patient safety standards on any hospital system globally.
