

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

|                          |  |
|--------------------------|--|
| Journal Name:            | <a href="#">British Journal of Medicine and Medical Research</a>       |
| Manuscript Number:       | 2014_BJMMR_15959   |
| Title of the Manuscript: | Epidemiology of Coccidian Parasites in HIV Patients of Northern Uganda |
| Type of Article:         | Original Research Article  |

**PART 2:**

| FINAL EVALUATOR'S comments on revised paper (if any)   | Authors' response to final evaluator's comments |
|--|---|
| <p>The manuscript is significantly improved.<br/> I have some minor comments:<br/> On row 112: better to write control group instead of test group<br/> Change at all places in the paper gender to sex<br/> If no significant difference write "tendency towards..." or "trend towards....", do not write that something is higher or lower<br/> Table 1 can be replaced by text only<br/> In all the table texts remove the word "showing"<br/> In discussion stress more that the prevalence you found is low probably due to the co-trimoxazol prophylaxis</p> |   |

**Reviewer Details:**
