<p>The word "showing" should be removed from table titles.</p> <p>I still think that tables 1-2 should be combined into one table.</p> <p>I am not sure why the authors changed the way table 3 is presented. Each row should add up to 100%. Each row in tables 4 and 5 should also add up to 100%.</p> <p>P-values from a statistical test are still not presented in Table 3.</p> <p>I do not see the results of an adjusted logistic regression.</p>
