

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Pharmaceutical Research
Manuscript Number:	2013_BJPR_4083
Title of the Manuscript:	Stability of an aspirin in the aspirin+curcumin admixture at different storage conditions

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The authors correct the manuscript according to the revision comments, improving its quality. However, the English spelling and grammar should be checked.</p> <p>Additional minor comments:</p> <ul style="list-style-type: none"> - Line 47: It should say "pore size" instead of "pour size" - Line 71: Confirm the composition of the mobile phase: the proportions of distilled water/acetonitrile were 55/45 v/v in the previous version. - Line 104: It should say "Differences in" instead of "Differences". - Line 130: It should say "The concentrations" instead of "The concentration" 	<p>We appreciate your comments and have corrected our manuscript according to your comments.</p> <ul style="list-style-type: none"> - Line 47: "pore size" - Line 71: The mobile phase consisted of distilled water, acetonitrile and formic acid. (v/v/v, 45/55/0.05, pH 3.3). - Line 104: "Differences in" - Line 131: "The concentrations" <p>We corrected grammatical errors and added some data (Table 3). Additionally, we corrected some errors in statistical analysis (line 105-106) and in conclusion (line 165-166), and highlighted in green.</p>
