- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

**SDI Review Form 1.6**

**PART 2: Review Comments**

	<p><b>Reviewer's comment</b> The paper by Bae and co-Authors is well written and surely deserves to be published on the British Journal of Pharmaceutical Research. I suggest to perform the requested changes in order to improve the overall manuscript quality.</p>	<p><b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i></p>
<p><b>Compulsory</b> REVISION comments</p>	<p><b>Paragraph 3.5: Authors should provide a convincing explanation for this phrase: "These results suggest that negatively charged AY-CNAs could be effective to suppress protein adsorption and cellular interactions in the body[...]". There are no discussed evidences about this effects, as far as I understood it, in the manuscript. This explanation is mandatory as it could be, in my opinion, the most relevant result of the study.</b></p>	
<p><b>Minor</b> REVISION comments</p>	<ul style="list-style-type: none"> <li>• Please change Abstract style, according to Journal's standards.</li> <li>• Enhance Figure 3 caption, in order to provide an explanation for "ex" and "em" present in the figure.</li> <li>• Figure 5 could be improved, in my opinion, by adding a line to emphasize the "biphasic kinetics".</li> <li>• Line 293-294: some references should be</li> </ul>
