

SDI Review Form 1.6

Journal Name:	British Journal of Pharmaceutical Research
Manuscript Number:	2013_BJPR_6989
Title of the Manuscript:	Comparative and synergistic phytochemical composition and antioxidant activities of Psidium guajava (stem bark) and Aloe barbadensis (leaf)
Type of the Article	Research paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Abstract: The summary is too long to reduce 5,6. It would be better not to mention the parts of the plants studied in the title</p> <p>15. Keywords : add plant families names, antioxidant activities, phytochemical composition</p> <p>21. It never starts a text with a reference No. 3, but by the number 1. Therefore all references in the text are to correct and to revise</p> <p>85. 5 g and not 5g</p> <p>96. 0.5 g not 0.5g</p> <p>252-255. the following statements must be included in the conclusion:</p> <p>There is a strong linear correlation between the total phenol and total flavonoid contents of the extracts with the antioxidant activities of the plant extracts which is reflected in their high DPPH free radical scavenging ability and TEAC.</p> <p>Guava exhibited higher activities than A. vera. There were synergistic effects 254 in the phytochemical contents and antioxidant phytochemical activities of the combined plant materials.</p>	
Minor REVISION comments
