PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The manuscript describes the use of a co-processed superdisintegrants for the development of a fast dissolving tablet. The reviewer is not able to see either the novelty or need for such a study. Also the results do not show any significant importance to use such co-processed superdisintegrants. The authors have just compiled what they did and sent it out as a manuscript which does not have a systematic review of the results. The referencing pattern within the text is also not as per the journal format.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
