# **SDI FINAL EVALUATION FORM 1.1**

### PART 1:

Journal Name:	British Journal of Pharmaceutical Research	
Manuscript Number:	2012_BJPR_3020	
Title of the Manuscript:	Optimizing Drug Targeting of Alginate Beads Using Gabapentin as a Hydrophilic Model Drug.	

#### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I do not recommend the publication of manuscript. The manuscript is poorly and carelessly written. It has not been satisfactorily revised as per suggestions. For example, in the very beginning of the manuscript the following lines in the abstract are not correct.	
Methodology: alginate beads were prepared by dripping sodium alginate gel into calcium chloride solution of and then dried overnight at ambient temperature.  Results: Mucoadhesion of alginate beads were shown to be decreased upon adding SLS (30% after 8 hrs).
