

SDI Review Form 1.6

PART 1:

Journal Name:	<u>British Microbiology Research Journal</u>
Manuscript Number:	2013_BMRJ_4860
Title of the Manuscript:	Characterization of Lactic acid bacteria from raw milk samples of Cow, Goat, Sheep, Camel and Buffalo with special elucidation to lactic acid production
Type of the Article	Research Paper

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript has serious grammar and syntax errors. The overall approach is simplistic and the study does not provide novel information.	Thank you for valuable suggestions. Grammar part is now improved in the revised manuscript. The approach towards the study is beneficial for small scale dairy and starter producing industries like us, in which we spend a lot of time searching for strains from different milk and fermented milk product samples with high lactic acid producing potential. The suggestions will be kept in mind before writing the next manuscript Thank you
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
